Miss Dorothy Kohl played her accompaniments on the organ.

The bride was escorted to the altar by her father. The tightly fitted bodice of her gown, made of Chantilly lace, was finished with an illusion neckline, small satin buttons down the back and long lace sleeves tapering to points. A Chantilly lace peplum falling into a cathedral sweep train trimmed the nylon tulle skirt made over satin. Her fingertip veil was held in place by a helmet of matching lace. Her gift from the groom, a two-strand pearl necklace, was her only jewelry. She carried with her white Bible, a cluster of white roses and Stephanotis tied with white ribbon streamers.

The maid of honor, Miss Lois Mancke, wore a Burgundy velvet ballerina dress made with a bolero jacket and mandarin collar, and with matching gauntlets. Her headpiece was of yellow roses. The candle lighters, Mrs. Marilyn McManimen and Miss Sally Larson, were dressed identically as the maid of honor. All wore pearl drop earrings, gifts from the bride, and carried bouquets of yellow roses.

Several accidents have occurred in the neighborhood of Mokena during the November harvest work. Royal Corp, who operates a farm on Maple road, was hurt on November 25, as he was getting ready to unload corn into a crib. While he was standing by the elevator, a revolving rod caught a pant's leg and gradually drew him toward the machine as his clothing wound tightly around it. He was held completely by the machine with the exception of one arm. He was able to attract the attention of his little daughter who was watching from a window in the house and she called her mother who went to his assistance. He suffered severely from shock, torn ligaments under his arm, bruises and skin burns, which became infected. He is under the doctor's care since his narrow escape.

On November 18, James White, 13, who is employed on the Henry Tilsy farm, lost the part of the index finger to the first knuckle, on his left hand. His finger was caught in a gear on the corn picker when he slipped as he was getting off the picker. His injury is now reported as healing satisfactorily.

**A. E. BUESCHELS
OBSERVED 50TH
ANNIVERSARY**

The golden wedding anniversary of Mr. and Mrs. Andrew E. Bueschel of Mokena was celebrated last Saturday evening with a party in the VFW hall in Mokena.

The party was sponsored by their son Andrew L., and his daughter Miss Donna, and sons Andy, Jr. and Jack. There were over 300 guests at the party who wished the couple every happiness. Dancing was enjoyed and refreshments were served by the members of the Auxiliary in the dining room. The table was decorated with a centerpiece made of golden bells on either side of the figure '50'. Lighted candles were on either end.

A mock wedding was given with Robert Clark as bride, Mrs. Walter Muehler, groom; Walter Olson, minister; Walter Muehler, ring bearer, Norman Olson, bridesmaid; Roy Richardson, best man and Frank Hirsch, Jr., Chicago, flower girl.

Andrew E. Bueschel and Caroline Haehnline were married in Chicago November 22, 1901. Mr. Bueschel was engaged in the manufacturing of folding paper boxes, retiring from that business 25 years ago when they moved to Mokena. They purchased the home and acreage belonging then to Mr. and Mrs. J. V. Hall where they have lived since and are engaged in the chicken raising business.

**MOKENA VILL'GE
BOARD MEETS**

At the Mokena village board meeting Tuesday evening Christie Sippel requested the board to investigate rulings on de-rent controls. The question followed if this is in a defense area which might involve that solution.

Many complaints have been received by the board about dogs running loose, especially on the public school grounds. Cases have occurred where dogs have gotten into a fight at the school door. The attorney was instructed to draw up an ordinance concerning dogs in the village and without the dog having rabies shots. The village plans to have a veterinarian in the village to give such shots. The ordinance would also provide for a dog pound.

The Civic association was given permission to erect and decorate a Christmas tree in the village park. The attorney was also instructed to investigate the possibility of erecting a scout cabin in the village park. The terms on which that property was given to the village may prevent such a building.

Parking signs are soon to be erected at the post office showing five minute parking during business hours.

George Bennett, who is a county constable and has been doing some police maintenance work, is to be sworn in at once as village police.

The Rock Island was granted permission to build a crossing over the new spur track they are building, condition that they be responsible for taking safety measures at that place.

No state fuel tax fund will be available during the coming year for road work outside of maintenance.

The water system, sanitary and storm sewer reports will be made at the next meeting in January.

The Amvets were granted permission to flood the school grounds for skating.

The board is at once going to take drastic measures against citizens who have continually broken the village ordinance by parking trucks and cars on the village streets. This, in addition to the danger presented thereby gives an unsightly appearance.

Discussion was made on the changing of water ordinance whereby property owners will be responsible for water meters and bills. This was brought up by people moving from one house to another, or to another city, and new people moving in with no notice given the village and making it impossible for the treasurer to give water bills properly.

Mokena School News**First Grade**

The first grade enjoyed telling the Thanksgiving story with their art work. They colored and cut out Pilgrim pictures. They made Indian head bands for themselves.

Our last project was turkey nut cups. The day before Thanks giving we fed these turkeys candy corn. We sang "Turkey in the Garden" at the Thanksgiving assembly.

Now we are reading our third preprimer "We Come and Go". We learned the word, "want", so we were able to tell in pictures and words "what I want for Christmas."

Second Grade

By Phyllis Renfro, teacher
One group of the second grade reading class worked out a play based on one of the stories which had been read. The name of the play was "Baby Rabbit's Name." Betty Lehmann and David Baker were the directors and chose the children whom they thought would best fit the parts of the characters who were:

Mother Rabbit, Lois Bruhn, Father Rabbit, Ronald Tischer, Baby Rabbit, Patty Ronan, Grandmother Rabbit, Judy Hemmrich, Grandfather Rabbit, Ronald Teague, Mr. Ground Hog, Ronald Yunker, Mrs. Crow, Shirley Teske, Mrs. Bear, Nancy Bisgrove, Mrs. Squirrel, Jean Wallschlaeger.

The play was shown to the children in Mrs. Leedom and Mrs. Pester's rooms.

The girls in the room have been helping their mothers with the Christmas costumes by making Indian headbands of bright colored paper.

In Science, last week, experiments were performed. Flour, sand, sugar and salt were furnished by different members of the class. The children learned which of these materials dissolve in water and which do not. The glass containing the salt solution was placed in the window sill and watched daily. The children note the evaporation of the water and see the salt crystals that remain. The study of different kinds of evergreen trees has been started. Twigs from various kinds have been brought to the room.

She was assisted by the first and second grade teachers, Mrs. Pester and Mrs. Renfro. Mrs. Leedom called on parents out of the group to act as pupils and taught the day's reading lesson as it is actually done. It was very interesting and enlightening to all parents. It was an enjoyable evening as it took many parents back to their own school days in memory.

Farmers Expect Much From New Fertilizer

Radioactive phosphorous fertilizer is a new tool used for the first time this season by soils men in the Illinois College of Agriculture to answer two questions.

The first question was: How much phosphorous in a plant comes from the fertilizer and how much comes from the soil? To get the answer, a project, planned by the U. S. Department of Agriculture with F. C. Bauer and L. T. Kurtz, was conducted in about 30 states this season.

The second question, tested in Illinois alone, was: What is the carryover effect of phosphorous already applied to the soil?

Jack Nelson, research assistant, says preliminary results indicate that when soil is low in phosphorous plants take more phosphorous from the fertilizer.

Plant foods and animal feeds which are made radioactive are nicknamed "tracers". They can be followed through the plant or animal, and the amount of radioactivity in various tissues can be measured at any time. Radioactive "tracers" provide a more exact way of telling what plants and animals do with nutrients.

Americans Are Prayer Minded

A prayer for peace was recently sent out by church and interfaith groups to educational, political and business leaders and was broadcast by a nationally-known radio team. The response was amazing. Hundreds of thousands are now using this daily prayer:

From the point of Light within the Mind of God
Let light stream forth into the minds of men.
Let Light descend on Earth.

From the point of Love within the Heart of God
Let Love stream forth into the hearts of men.
May Christ return to Earth.

From the center where the will of God is known
Let purpose guide the little wills of men—
The purpose which the Master

knows and serves.

From the center which we call the race of men
Let the Plan of Love and Light work out.
And may it seal the door where evil dwells.
Let Light and Love and Power restore the Plan on Earth.

How to save time and money on Long Distance calls

"How to save time

"Here are some pointers that will make your Long Distance service better and faster.

"First, call by number whenever possible. It's the fastest way to get connected.

"The way you place the call's important, too. Suppose you're calling New York, and the number is CIRCLE 6-0200.

"When 'Long Distance' answers, you just say 'New York City, Circle 6-0200.' (By giving the name of the city first, you will help the operator speed your call.) Then she'll ask you for your number.

"How to save money

"1 — Long Distance rates are lower after 6 P. M. and all day Sunday. The circuits are usually less busy then, so your calls go through faster, too.

"2 — When you're willing to talk to anyone at the other end, it's most economical to put your call through 'Station-to-Station.' You don't have to say 'Station-to-Station'—just give the operator the city and number you want.

"3 — When you want to talk to a particular person or extension telephone, tell the Long Distance operator you want to place a 'Person-to-Person' call. This costs a little more, but charges don't start until you begin talking with the person (or on the extension) you want."

"Here's one reason Long Distance calls usually go through fast. This new equipment enables the operator to dial your calls to distant places as quickly as you can dial a local call. Remember, the fastest way to get connected is to name the city you're calling, then give the number."

"Just Been Thinkin'"

Recently my six year old daughter lost another of her baby teeth. Like most other children passing through the period of dental losses and empty spaces, she scarcely could wait until another nightfall when she might tuck the displaced cuspid under her pillow. Later on, as she slumbered happily away, I came to a plaintive realization of what I had lost with my youth.

**THE TOOTH**

She placed it under her pillow And she pleasantly dozed away, For the fairies would be there sometime Before the break of the day.. It gave her a wonderful feeling To think of the visitors due And the price pixies pay for something There no longer is value to.. Oh, this is the choice of childhood: To believe in the kindly unseen And a man might have youth everlasting If his dreams remained tender and green! For happiness, all too often, Is the thrill of what seems to be And a child can teach its elders To dream and to wonder and see.. She placed it under her pillow And she pleasantly dozed away, For the fairies would be there sometime Before the break of day.. —Frank H. Keith

**GROUND CORN COBS
KEEP COWS CLEAN**

Nels Pederson, Kane county dairyman, has built a small shed beside his barn in which to store ground corn cobs. Pederson uses the ground cobs in the driveway between his cows and also in the gutters. He finds that they soak up liquids quickly. They keep the floor from getting slippery and do a good job of keeping the cows' tails and flanks clean.
